

wyldfyre™ Listings 5.0™

offers a
simple and
easy-to-learn
solution designed for
you, the real estate professional.
Just look at these features:◦

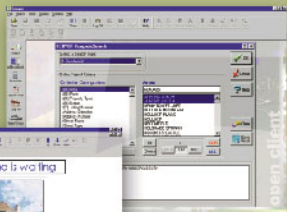

- Search the MLS for property information and photos the way you want to search.
- Work on-line with your MLS or off-line with a property database that you build and customize.
- Design and customize reports and flyers.
- E-mail your search results including photos.
- Perform Buyers Qualifications, Seller's Net Sheet, and other financial functions.
- Create a continuous "Auto Play" slide-show of personally selected properties right from your PC.
- Organize your client data with a fully integrated Client Manager.
- Produce a high quality Comparative Market Analysis in minutes with MLS property information and photos (using the CMAPro™ module).
